Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1, 6, 12 and 13 are allowed.
2. The indicated allowability of claim 7 is withdrawn in view of the newly discovered reference(s) to Thackston U.S. Patent 6,295,513. Rejections based on the newly cited reference(s) follow.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 7 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Thackston U.S. Patent 6,295,513. Thackston discloses a computer-readable recording medium recording a program for causing a computer to perform a process of managing a model constituted by a plurality of parts (col. 28, lines 5-25), the program causing the computer to function as storing means for storing the model (col. 28, lines 9-16), trial manufacture request input means for accepting an input of a trial manufacture request for a certain part constituting the model stored in the storing means (col. 29, lines 33-48), and defining means, responsive to the trial manufacture request for the certain part from the trial manufacture request input means, for defining the part as a part with a predetermined version number (col. 29, lines 20-32).
